

This letter is to recommend Dr. Carol Albers of Adopt Abroad Inc, We hired her to do our home study while living and serving here at Ramstein Air Force Base. She was very professional and thorough. She encouraged us when our lawyer failed us. She went out of her way to complete our study. It was waiting for us at our new lawyer's office when we returned to the states this past summer to finalize the adoption. We developed a relationship that we believe will go beyond our need for the home study. If you have any questions or concerns about Dr. Albers, please email us as we highly recommend her.

Sincerely,

Scott & Bonnie Sims
