

A Military Family Stationed Abroad

Leslie & Justin

Dr. Carol Albers is a blessing to our family, because without her we wouldn't have our beautiful son. Dr. Carol Albers made all of our adoption plans come true in more than half the time it would normally take through any other adoption agency I've found.

Another name I would like to recognize is Pia. We have never met her in person like we did with Dr. Carol Albers, but she assisted us when Dr. Carol Albers was out of town. She exceeded our expectations, and went above and beyond to help make our adoption possible while stationed overseas. Without Pia our time frame for our adoption would have probably be much longer then we wanted.

Adopt Abroad, Inc. has been helpful all along the way even though they sometimes didn't have answers to some questions I may have had. Instead, they made sure I reached the right person to get my questions and concerns answered.

In the next couple of years, my husband and I hope to adopt again. We would love to work with Adopt Abroad, Inc. again for our next adoption.

Here are a few tips for Adopt Abroad, Inc. future adoptive families:

1. Read through as many testimonials as possible, they really helped my husband and I choose Adopt Abroad, Inc.
2. If travel is required search around multiple websites for best flight and hotel arrangements. We decided on www.Expedia.com.

3. If a hotel is needed during your stay, check the hotels direct website for special deals, we literally saved hundreds of dollars by booking our hotel directly from the hotels website.

Good luck on all your future adoption plans!

Sincerely,

Leslie & Justin
