To Whom It May Concern:

It is with immense pleasure I am able to share with you our experience with Adopt-Abroad, Inc., the employees of this agency and specifically, Dr. Carol Kinley-Albers who is presently assisting us with our Ukrainian adoption.

We contacted Dr. Carol Kinley-Albers and the Adopt-Abroad Inc. after attending the Adoption Symposium in May, 2007, to complete our home study and begin our adoption journey while stationed at USA NATO Madrid, Spain. Inviting someone into your home to assess your family, your home and values can be intimidating and stressful; however, Carol quickly alleviated those feelings and put our family completely at ease. She was welcoming and greeted us warmth and openness. Carol conducted a professional and meticulous assessment of our family which was reflected in the written home study analysis. Carol answered all of our questions during the interview, provided a wealth of information and was accessible afterwards both telephonically and through email.

Following the home study, we shifted our concentration to locating an agency to support us with our adoption journey. It was clear, Dr. Carol Albers with her knowledge and expertise and the caring and supportive staff at Adopt-Abroad Inc. could walk with us through our adoption journey; and they have.

Without hesitation, we would recommend Dr. Carol Kinley-Albers and the staff at Adopt-Abroad Inc. as an agency for U.S. persons and military families living abroad as they have been nothing less than exceptional!
