23rd April 2008

Subject: Letter of recommendation

To whom it may concern:

I have known Adopt Abroad for almost a year, and I am honoured to offer my recommendation for Adopt Abroad to be the best Us adoption agency in Europe for American living abroad.

I am an adoptive mother who is adopting two babies from Guatemala thanks to Adopt Abroad. In my dealings with Adopt Abroad and its Director of European Services, Dr. Carol Albers, I can personally vouch for her professional experience especially, with Us citizens living outside the country. She knows exactly what paperwork and procedures are requested for Americans living abroad.

Furthermore, Adopt Abroad has got excellent and reliable coordinator in the country.

I can say unequivocally that Adopt Abroad is very professional, reliable, trustful agency in Europe for Us citizens living abroad who want to adopt children.

Prospective adoptive parents would be lucky to deal with Adopt Abroad agency and can entrust her director Dr Carol Albers for their adoption
